Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant proposed an amendment of Independent Claim 1 to incorporate the subject matter of dependent Claim 10 with respect to the cam lock mechanism, whereby Tyson with Ponton fails to teach the cam lock mechanism being releasably engageable with one another by turning the modular light assembly relative to the support member. Proposed amendment attached to Office Copy. In addition, the Applicant further suggested amending Independent Claim 11, in a formal response, by detailing the subject matter of Claim 10. Upon receipt of formal amendment, a further search/consideration will be considered by the Examiner.
